are you picking up all your students work is trying to tell you in this book assessment expert susan m brookhart and instructional coach alicia oakley walk teachers through a better and more illuminating way to approach student work across grade levels and content areas

you'll learn to view students' assignments not as a verdict on right or wrong but as a window into what students got and how they are thinking about it. The insight you'll gain will help you infer what students are thinking, provide effective feedback, decide on next instructional moves, and grow as a professional. Brookhart and Oakley then guide teachers through the next steps: clarify learning goals, increase the quality of classroom assessments, deepen your content and pedagogical knowledge, study student work with colleagues, and involve students in the formative learning cycle. The book's many authentic examples of student work and teacher insights, coaching tips, and reflection questions will help readers move from looking at student work for correctness to looking at student work as evidence of student thinking.

The goal of this series is to provide readers with a strong foundation in algebra. Each book is designed to develop readers' critical thinking and problem-solving capabilities and prepare readers for subsequent algebra courses as well as service math courses. Topics are presented in an interesting and inviting format, incorporating real-world sourced data and encouraging modeling and problem-solving. Algebra and problem-solving functions, linear functions and inequalities, systems of linear equations and inequalities, polynomials, polynomial functions and factoring, rational expressions, functions and equations, radicals, radical functions and rational exponents, quadratic equations and functions, exponential and logarithmic functions, conic sections and nonlinear systems of equations, sequences, series, and the binomial theorem for anyone interested in introductory and intermediate algebra and for the combined introductory and intermediate algebra.
